HELENA, MONTANA 59624

Dear Reader:

This report, published each calendar quarter, is a compilation of employment and wage data. The information is compiled from reports submitted to the Montana Department of Labor and Industry by employers subject to the Montana unemployment insurance law. Also included in the report is similar data for federal government employees in Montana.

Employment and wages are totaled according to county, private ownership, government and industry.

Sincerely,

Bob Rafferty

Bob Rafferty, Chief
Research & Analysis Bureau

MONTANA
EMPLOYMENT AND WAGES
QUARTERLY REPORT

PREFACE

This publication provides information on employment and wages of employers covered under Montana unemployment insurance laws.

A special thank you to:

Ginny Helfert, Program Supervisor.

Mary Ford, Statistician, who analyzed the data, wrote the text and compiled the graphs.

Kay Andersen, Statistician, who edited and analyzed data, updated the graphs, and designed the cover.

Paula Welsh, who entered data into the computer and distributed the publication.

If you have any questions, please contact Ginny Helfert at (406) 444-2430.

GLOSSARY OF TERMS

COVERED EMPLOYMENT
The employment reported by employers whose total annual payroll exceeds $1,000 in a calendar year.

Also includes employment reported by:
- -Agricultural employers if they paid $20,000 or more in a quarter, who are subject to Montana's unemployment insurance law.
- -Domestic service employers if they paid $1,000 or more in any quarter.
- -Self-employed persons on a voluntary basis.

Excludes:
- -Individuals in employment of son, daughter or spouse.
- -Child under 18 in employment of parent.
- -Railroad employees.
- -Real estate or insurance salespeople paid solely by commission.
- -Student workers, inmate workers or patient workers.
- -Elected officials.
- -Church employees.

SIC CODE (Standard Industrial Classification Code)
The objective in industry classification is to have each place of business coded on the basis of its principle activity. If a firm conducts different activities at its various establishments, separate industry codes are assigned to the extent possible to each activity. Industry codes are assigned to each reportable establishment based on 'nature-of-business' information employers submit, in accordance with the Standard Industrial Classification Manual, 1972 edition.

ESTABLISHMENT

An establishment is defined as a single physical location at which one, or predominantly one, type of economic activity is carried on. Employers who operate at two or more locations are requested to identify separately the employment and payrolls of each location.

EMPLOYMENT

Employment for a given month is the number of workers covered under the Montana unemployment insurance laws who earned wages from a reporting unit during the pay period which includes the 12th day of the month.

GROSS WAGES

Gross wages, as reported on the quarterly contribution report of employers covered by the unemployment insurance law, are the total amount of compensation paid by the employer during the quarter.

DISCLOSURE RESTRICTIONS

Publication of employment and wage data is withheld for any industry level which consists of fewer than three reporting units or in which a single establishment accounts for 80 percent or more of the industry's employment.

FIRST QUARTER, 1987 IN REVIEW

One third of the employers covered by unemployment insurance are surveyed each year to determine that they are properly classified by:

1. Standard Industrial Classification (SIC), a code that signifies the type of product or service produced by the business;
2. county, with each business assigned a three-digit code according to the county it is located in;
3. ownership-a business can fall into one four ownership categories - federal government, state government, local government, or private. If the business is a government agency, it falls into one of the government classifications. Otherwise, if the business is owned by a private citizen or citizens, it is classified under private ownership.

This year, the industry groups surveyed were Agriculture, Mining, Construction and Manufacturing. Some of these industries experienced major changes because one or more of the three codes was changed. Changes to SIC, county or ownership codes are made if the employer indicated the business has changed or if the original code was in error.

Virtually all industry groups are affected in some way since businesses may be moved into or out of the industry group when changes are made to the classifications of a particular business. The impact of the change is determined by the change in employment and wages in each industry group (SIC), county or ownership.

AGRICULTURE, FORESTRY & FISHERIES (SIC 01-09)

Employment Change from year ago:	-2.8%
Employment Change from previous quarter:	-13.0%

This group as a whole experiences a seasonal decline at this time of year.

Two industry groups within SIC 07 Agricultural Services that show noticeable declines are 0751 Livestock Services, including custom slaughtering which declines after hunting season ends; and 0780 Landscaping, showing a normal seasonal drop.

SIC 08 Forestry includes tree farms which experience a gigantic drop after Christmas season is over, and reforestation which normally is not active at this time of year.

MINING (SIC 10-14)

Employment Change from year ago: -16.4%
Employment Change from previous quarter: -12.7%

Metal mining continues to be one of the bright spots in Montana's economy. It has increased 42% over the last year, mainly in gold and copper mining.

Industry 1099 Miscellaneous Metal Ores shows an increase of 150 employees in the first quarter of 1987. This is because a large platinum mine, previously classified under SIC 1311, was moved into the classification industry 1099, Miscellaneous Metal Ores.

SIC 13 Oil and Gas Extraction shows a 36% decrease in employment over the past year. This is due to the decline in the oil and gas industry during 1986. In general many of the businesses in oil and gas extraction fluctuate a great deal from month to month, making it difficult to pinpoint the exact area of decline. This industry group also was subject to this year's SIC refiling survey and some units were reclassified into other industries.

In SIC 1311, one unit with an employment level of 100 has now been reclassified into SIC 1099.

CONSTRUCTION (SIC 15-17)

Employment Change from year ago: -16.8%
Employment Change from previous quarter: -31.1%

SIC 15 Building Construction shows a decline of 156 units since last year. Some of these were transferred to other industry groups during SIC refiling. Also, a portion of the decline in this group is due to normal seasonal fluctuations in employment.

The largest fluctuation in SIC 16 Heavy Construction was found in SIC 1611, Highway Construction. This industry group was also affected by SIC refiling and lost a total of 41 businesses, many of them to industry group 17.

MANUFACTURING (SIC 20-39)

Employment Change from year ago: -2.8%
Employment Change from previous quarter: -8.6%

The processing of sugar beets was completed in January, therefore SIC 20 Food Products shows a decline.

Logging camps (SIC 2411) experienced its normal seasonal drop during March for spring breakup. Also SIC 2452 Prefabricated Wood Buildings lost approximately 100 employees due to SIC refiling. The majority of these were relocated in SIC 2421 Sawmills and Planing Mills.

SIC 3241 Cement Manufacturing experienced a decline in the first quarter of 1987 when a large cement plant cut back for its annual cleanup.

SIC 3273 Ready-Mixed Concrete shows a seasonal drop of approximately 250 employees.

TRANSPORTATION, COMMUNICATIONS, ELECTRIC, GAS AND SANITARY SERVICES (SIC 40-49)

Employment Change from last year:	-3.4%
Employment Change from previous quarter:	-5.3%

In SIC 4210 Trucking, several units show a decline after the Christmas season.
SIC 48 Communication shows a 7% decline from the fourth quarter of 1986 . This is an administrative change caused by a large utility company improving the method of reporting their employment data. No actual jobs were lost.

WHOLESALE (SIC 50-51)

Employment Change from year ago:	-3.9%
Employment Change from previous quarter:	-3.4%

RETAIL (SIC 52-59)

Employment Change from year ago:	-4.8%
Employment Change from previous quarter:	-1.1%

No particular industry had a large percentage of the decline. In SIC 5411 Grocery Stores, one large grocery chain experienced a drop of approximately 180 employees.

FINANCE, INSURANCE, AND REAL ESTATE (SIC 60-67)

Employment Change from year ago:	0.6%
EmploymentChange from previous quarter:	1.6%

This industry group experienced some small changes due to SIC refiling.

SERVICES (SIC 70-89)

Employment Change from year ago: 0.8%
Employment Change from previous quarter: 2.4%

Major group 70 Hotels had an approximate increase of 200 employees. A major portion of this is due to the winter ski season.

Industry group 80 shows an increase of approximately 500 employees over last quarter. This was dispersed throughout SIC 8021 Dentists (+30); SIC 8049 Miscellaneous Health Practitioners (+30); SIC 8051 Nursing Homes (+90); SIC 8062 General Medical Hospitals (+95); SIC 8063 Psychiatric Hospitals (+100) which now includes a large psychiatric hospital previously under state ownership and now privately owned; SIC 8081 Outpatient Care Facilities; and 8091 Miscellaneous Health Services (+140) including a health service facility which is now privately contracting for services that were previously handled through a state agency.

EMPLOYMENT COMPARISON 1983-1987

Following are ten graphs by major industry group comparing employment for the years 1983, 1984, 1985, 1986, and 1987.

Note that seasonal industries in Montana include agriculture, forestry and fisheries; construction; manufacturing (due to logging); real estate; and services (due to the tourist trade). Also, there is a large drop in government employment during the summer months when public schools are closed.

Compared to the four previous years, 1987 has shown lower employment levels in several industries. The most notable of these are mining, construction, manufacturing, and wholesale trade. Keep in mind that the large drop in mining is due to the decline in the oil and gas industry, and the drop in construction and manufacturing is partially due to changes in industry classifications that take place the first quarter of each year.

Several groups also show increases in employment levels over 1986, the most notable being retail trade; finance, insurance and real estate; and services.

For a more detailed analysis of first quarter, 1987, see the quarterly review on page iii.

TOTAL	257,444	1,018,298,277	265,640	1,088,398,180	255,169	1,020,465,400

* 86/1 indicates first quarter 1986.
  86/4 indicates fourth quarter 1986.
  87/1 indicates first quarter 1987.

Agriculture and Construction typically have lower employment and wages during the first quarter of each year. A portion of the decline in Construction is due to changes in industrial classifications that are made the first quarter of each year Although metal mining is currently showing growth in Montana, the Mining category as a whole experienced a 16% drop in employment since last year. The majority of this decline can be found in the oil and gas extraction category. The Retail Trade; Finance, Insurance and Real Estate; and Services categories all show slight growth in employment over last year.

EMPLOYMENT AND NUMBER OF BUSINESSES BY SIZE CLASS

Size class signifies the employment size of each business. In the interest of consistency, the size class is based upon March employment. The table below illustrates the employment range for each size class.

MARCH EMPLOYMENT
0
1-4
5-9
10-19
20-49
50-99
100-249
250-499
500-999
1,000 and over

Size Class 0

How can a business be active and have no employment? Since size class is based upon the employment a business had during March, it's possible. Some businesses can have employment during part of the year such as summer months only. This is true in seasonal industries like construction, tree farms and hunting guides, to name a few.

The charts on the following two pages show the number of businesses categorized by size class and March employment by size class.

The use of 0 size class started in 1984. Prior to 1984, businesses with no employment in March were included in size class 1.

Improvements in Reporting Procedures

Employers report their employment and wage data for each county, rather than statewide, if they have operations in more than one county. Prior to 1984, fewer employers were able to report at this level. Since then, more and more employers report the number of employees working in each county and their wages. This enables us to break down the business into separate entities in the counties rather than lump all the data into one business in one county.

Consequently, there appear to be fewer businesses in the category with 5-9 employees starting in 1984. Most businesses now providing reports for each county that they operate in were classified in the 5-9 category.

This detailed reporting creates a more accurate picture of the size of businesses, which county the businesses are located in and the number of employees in each location.

EMPLOYING BUSINESSES PER SIZE CLASS

NUMBER OF EMPLOYEES PER FIRM	NUMBER OF UNITS							
	1980	1981	1982	1983	1984	1985	1986	1987
